The Plus Group Hits Milestone of 15 Years in Business

Lombard, IL — March 16, 2007 — The Plus Group begins a month-long celebration this week to mark the anniversary of 15 years in business. Headquartered in Lombard, Illinois, The Plus Group has 15 offices in Arizona, California, Illinois, New Mexico and Texas. Every day, the company employs nearly 1,000 people and supports the needs of over 300 client companies.

Fifteen years ago, a small team of individuals had a vision to create a customer-centric staffing company—one that would provide innovative, ethical and quality solutions to its customers. These customers would include clients needing supplemental staff as well as the associates providing those services and the dedicated team of staff members coordinating these services. From this lofty vision, The Plus Group was born.

Over the past 15 years, The Plus Group has been ranked twice on the prestigious Inc 500 list and has received many accolades from both clients and associates.

“It is because of the relationships we have built with our customers that The Plus Group continues to grow as a company. But nothing brings me more joy than helping so many Americans find work. Each year we find employment opportunities for nearly 5,000 people,” John Seelander, President of The Plus Group, said upon reflection of the 15 years in business, “I want to personally thank all of our customers, associates and staff for their exceptional partnership. And today I proudly recommit The Plus Group to remaining The Leading Customer-Centric Staffing Company.”

The Plus Group provides a wide range of staffing services including long-term staff augmentation, temporary, temp-to-hire, direct placement and performance-based project work. Their areas of expertise include Government, Technical, Administrative and Call Center Support. More info at www.theplusgroup.com
